Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The Applicant provides a MRI device for imaging in which water and fat are imaged in-phase and correcting wraparound of a portion beyond a range of $\pm\pi$ and producing the image based on a sum of the absolute values of the $F(0)$ term and the $F(1)$ term of the Fourier-transformed data. The prior art fails to teach these claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
